50X1-HUM

1. Between 8 and 16 April 1951, the Strausberg airfield was still occupied by four single-engine low-wing monoplanes with radial engines, landing gears retracting inward, and retractable tail wheels.
  2. On 11 April, a railroad tank car arrived at the Strausberg railroad station. The fuel was put into tank trucks                      and 50X1-HUM hauled to the airfield. Eight fuel containers previously seen at the field were not yet dug in.
  3. Ambulance                      left the field and passenger car                      moved toward 50X1-HUM the field. \* 50X1-HUM
- \*                      Comment. The occupation has not been changed. The reason why four fighters are parked at the field is not known. There are no indications of an intended reoccupation of the field by an air unit. 50X1-HUM
